The Teaching of Salvation and Harmonious Development

**The mechanism of organizing the controlling clairvoyance
from the standpoint of organizing events from the Soul and from
Consciousness**

Lecture 3

In this lecture
according to my system of Salvation and harmonious development
I'm showing
mechanism of organizing controlling clairvoyance
from the standpoint of organizing events from the Soul
and from the standpoint of organization from Consciousness

i.e. since the Soul organizes Consciousness
and Consciousness in turn
can also manage events

it turns out that in relation to each event
There are two sources of control
it's from the Soul
and from Consciousness

from the Soul it can be direct control
and from Consciousness it can also be direct
but it turns out that this is a consequence of the Soul

the scheme is very simple

for example, by designating a number, for example 1
Soul information area

number 2 area of information of Consciousness

number 3 events

it is clear that the number 1 contains the number 2

i.e. the Soul develops Consciousness
then management through 2 goes as investigative management
area 3
some external or internal

and it turns out that here is the investigative department
this is the perimeter of the investigative department
or the area of the investigative department

this is the birth of ^{actually} controlling clairvoyance

i.e. what is controlling clairvoyance

this is the birth of a harmonized level of Reality
harmonized level of Reality

this is how this birth happens

a very specific technology
you need to see
Well, for example, on the human body
then in this case
it works like this

area 3 is man
so area 1 is the Soul
which is present its information everywhere
to the exact and perfect extent
which comes from the Creator

and the first center of presence of your Soul
in another person's information
this is his geometric place of the heart

so when you look for example
on the heart of another, ^{for example, mentally}
you see the structure of your Soul

i.e. knowledge by your Soul
its internal structure
it turns out that this is a diagnostic system

i.e. the first element is the control element
why exactly a manager
that looking through the heart you normalize

First, make the situation as good as possible
then look at what exists

and then you normalize again
Well, we can already regulate it through other channels

so here is the first level of the Norm
through the heart
This is the first element of controlling clairvoyance
precisely from the point of view of birth
i.e. creation of matter

the second level which denotes Consciousness
this is the entire external surface of a person, i.e. skin
of course this includes the surface of the eyes, hair, etc.

so that's when we look
on the surface of the skin as on Consciousness
as conscious
what we perceive

it turns out that the skin has very specific
i.e. the outer surface of a person
has very specific tasks
for the same tasks that Consciousness plays for the Soul

it's a way of interaction
with external elements of Reality
then the outer surface of the body

same way
i.e. Consciousness of the physical body
it turns out that it is close to the skin

so looking at this position
and looking at
that your Soul is present
in the heart of another person

point of her presence
Consciousness is a generalized characteristic
that's what it is
area 1 i.e. Soul
contains
area 2 Consciousness
it turns out geometrically in itself

here it's the other way around
Consciousness contains itself locally
at one point of the heart
Soul area

and it turns out that what you imagine
at the level of geometry in physical interpretation
has a completely opposite picture

i.e. I have logically and practically proven it to you here
how does the Soul give birth to the body

that in fact it is not like through the skin

the skin is pierced from somewhere
enters there and begins to give birth

in fact, the principle of the structure of the World
he is completely different
not like, for example, only physical Reality

the principle of the structure of the world
that control objects may appear
anywhere when needed
without violating the boundaries of the region

i.e. Consciousness that is interpreted
how is your skin
born from the fact that the Soul is already in the center

and what's more, your form creates
all your internal organs
therefore, knowing only one such point
its configuration
and distribution
you can always create yourself or someone else completely

there or another element of Reality
if you know the same technology similar

so this is the level of controlling clairvoyance
in this case it is based on that
that you build what you need

and here is what you built
denotes just the control configuration
through controlling clairvoyance

i.e. you build first
then you fix it

and that's when you'll like it all
that's when you appoint
act of clairvoyance of the fixing type

it's like building a new house there
First, clean everything up there and make it normal

then say
this is Reality
controlling clairvoyance
it is like this, that in the way I explained
through this technique you build

any element of Reality
first which one you are directed to

if it's health then you first regulate it
get normal health
and then you fix it
yes, this is normal

and the result is controlling clairvoyance
this is an act of treatment
if we assume an event
then it is also maximal at first
you standardize according to this type

because it is a universal technique
it also applies to events
not only there to the body it is immediately clear
and then make an appointment
the most optimal level of events

later, when you practice
exactly with the technique that I gave you
you will see that she is completely pragmatic
you can touch it in a very specific way
even indicating instead of the level
there for example
Soul
Consciousness
and some object of information

in principle, it is possible to assign functions specific to this
for example, there is a dictaphone with a microphone indicated
1 voice recorder per region

and here is the consequence microphone area 2
and area 3 there is, for example, another voice recorder

so that for example I can control area 3
there with another dictaphone
I can spiritualize
i.e. make element 1 spiritual

and it turns out that the control occurs in this way
what other dictaphone
he writes because he has a similar system
i.e. some kind of tape recorder

this is how you can learn about the world
through a system of similar plans

and knowledge is also already developing clairvoyance
by the type of predictive management

this is another area that means
that control is not in real time

and the forecast phase that has not reached you yet
it is already manageable
i.e. you haven't accepted it as information yet
and they have already made the management

You will think about this yourself as homework
