

GRIGORY GRABOVOY
The Teaching of Salvation and Harmonious Development
**Method of overcoming the system of possible resistance
together with the Physical Body of the One God**
20.06.2003

Hello again
Today's seminar on the topic
implementation and dissemination of my Teaching
About Salvation and Harmonious Development
considered from the point of view of the method of specific
and the method is called
Spreading the Governing Reality
by overcoming method
systems of possible resistance
together with the Physical Body of the One God

and when we consider
it is precisely the process of overcoming
then here we are primarily considering
how can we, for example, consider such a process
how is there any problem at all

let's assume for the Physical Body of the One God
any question that is being considered
exactly as a task, for example, problems
then this task is formed by Him

because there is one God
It forms any element of Reality.

so having considered this problem
as the task of the Physical Body of the One God
we can say
that overcoming some system
it's first of all like well as if some factor
which is necessary for human development
exclude in order to achieve some control

and for the Physical Body of the One God
this factor is a factor created by him for that
so that well For example to spread some knowledge there

to the next Reality ^{yes}
to the next level of management
or to the next level of Perception

so here I am looking at the essence of ^{it in general}
one action
an action that is similar
and for the Physical Body of the One God
and also for the physical body of a person

but at the same time I show that here is the method
which is exactly what is being considered
as a method of overcoming
together with the Physical Body of the One God
he always starts from that
that the Physical Body of the One God is the Eternal Body
therefore, for Him, ^{generally speaking}, any situation is surmountable

and therefore when it comes to that
that overcoming is carried out
^{Well For example as if it were} a level of ^{control}
from the Physical Body of the One God
it is precisely the level that will always carry out this management

then the concept of "overcoming" is ^{generally} introduced
just for just again
in the concept of dissemination of information
here, after all, is the dissemination of information to obtain knowledge

and therefore there is the first very simple method
this is the method of such exclusion of Reality
that you get some problem
as a problem ^{well in general}, not existing in Reality

^{well} if we consider
from the point of view of the Physical Body of the One God
that's for Him
any element of Reality is like that
that He can always influence the element of Reality

i.e. He can do it like this
that information in principle which
^{Well for example}, it was recorded
at some level of collective Consciousness
this information may not be available

and this applies primarily to the level of Consciousness so this
which one exactly as if fighting
with some fast-moving processes in the body
or in social situations

and if we want there to be a tumor, for example
was instantly cured
then we need to make it so that the tumor does not exist
here in the Reality of the collective Consciousness
and it turns out that it does not exist in Reality
and the Physical Body of the One God

but when I make such a logical connection
it is clear that for the Physical Body of the One God
in principle, there is no concept of a "tumor" as such
because He must have a normal Physical Body

even if we consider
the process of the physical body as the physical body of a person
i.e. God developing at the level of man
then He has it on the mental level
i.e. logical control plan

therefore the exclusion principle
for the Physical Body of the One God
for a person it is again a level of control
primarily logical control

i.e. he must do the following action
Human
he must make special control
by excluding this Reality

and here comes the overcoming
it is like a factor of non-existence
some negative Reality
and how does the factor mean such an act of non-existence
so that it would be recorded in the World
that this information is not available anywhere
in no information in the World

as it does
namely the Physical Body of the One God

then this factor of non-existence
should be exactly like this

and therefore
we immediately get into the following system
that's exactly what is strictly logically fixed
any creative processes
they always exist
here from the point of view of the reverse level of optics

because God always gives
level of Eternal creative development
and in connection with this
any creative processes
they cannot be changed
since they can be changed yes
negative processes to the level of their non-existence

so well this process is roughly similar to that
what if you pour water on the sand for a long time
where there is some gold
gold is starting to show

Well for example gold is personified
with the concept of Eternal Life

and it turns out that we have
this one well like a "gold-bearing layer" and knowledge for example
giving precisely the knowledge of Eternal life
for any person
so that when he learns
exclude negative level from information
as it does for example there is the Physical Body of the One God
then he receives just the creative level
for your development

moreover, it excludes the possibility
initiation of this information
well, like some kind of virus, but negatively existing
in the information environment

and it turns out that this way
can be cured
there is a row for example there are tumor diseases
a number of some serious diseases
which may not be amenable to other methods
in treatment
because they can be socially conditioned

for example, there is a concept there called "damage"
some genetically dependent systems
if for example in the usual plan
very strong layering of collective Consciousness
which even at a good level
organic level of restoration of the cellular plan
For example in general, they still remain stable
For processes there for rapid healing

then to cure it quickly you need to do this
so that information in principle
of course, there was no better one in principle
some disease

then it turns out that if we also consider
some kind of event
For example there is no nuclear war there
and the absence of nuclear war mechanisms
then such mechanisms will not appear in principle

and thus
we can say quite clearly
that exclusion as a system of overcoming
quite an effective level
in the case when we understand
that nothing constructive can be excluded

i.e. cannot be excluded from Reality
there is some level of creation there
because creation
this is the manifestation of the Physical Body of the One God
and it is not excluded
because it is
first level of Reality

and when do we continue this plan?
well, in terms of as if personifications
with the Physical Body of the One God
well, like connections
with His level of Action and development
we see that in this case it is enough to enter
to the optics
in the glow of His Body
Well as if to personify
with His manifestation in some place

and walk as if with Him
or some area near His Physical Body

and this Light
it will allow you to go straight to this
well, sort of at the "gold-bearing" level
Well, of course in quotes
exactly where there is true knowledge
means to pass the level
where there is exceptional creation

and here is this passage, here is this passage
he is on his own
there is a powerful level of regeneration

healing
level of event regulation
the level of standardization in general in principle
in society and in the World
any social or political processes
intramolecular, etc.
i.e. this is the level of the integrated Norm

and now if we from this point of view
let's consider
The Physical Body of the One God
then we see that the integrated Norm
this is the task of His Soul

i.e. in this way we came to the Soul
Physical Body of the One God
where the Soul is also a manifestation
still a more subtle design
than just physical Reality

and here we will see that the Soul of God often
is no different from the Soul of a person

and if we explore this option further
then we see that the Soul of man
this is the continuation of the Soul of God

and when we consider such a process
from the point of view of well , Eternal development
it is clear that the Soul is already Eternal

because when we look at
the concept of "continuation"
then from the point of view
well, there is a completely autonomous free personality
the concept of "continuation" has meaning
following the same path
following well as if to the same level of Eternal development
but the following is absolutely precise

this is the difference between the Soul, for example
from the Spiritual component for example there is a person there
i.e. the Soul of man
from the Spiritual component of man
in relation to the Physical Body of the One God
that the Soul of man sees and knows with absolute certainty
what to do next time

and if for example Well there is a person there who does not listen
or thinks that they matter
some other aspects of development

then here arises the task of overcoming by the Soul
some element, for example , purely practical
so that next time
The soul came to the decision of the same level
but maybe there in a few years

and the question arises
so that such fixing systems do not arise
Well as if they were not resistances
for a person
from the point of view of his complete free will
in a creative sense

then for a person the concept of "overcoming"
this is the level when he can
the mechanism of the Physical Body of the One God
how to apply it for that
so that the tasks of the Soul can be overcome at that moment
whenever he wishes

i.e. well for example, a person has time
and he decided to take a look
these are the tasks of the Soul
here he is, resting somewhere, for example , in the mountains
and he looked at the tasks of the Soul

and decided to simply solve them
here are some situations to overcome
but not through some extreme situations
or by some kind of work, for example yes informational
namely, to logically overcome

then an analogy arises here
with the Physical Body of the One God again
where the Physical Body overcomes any situation
almost immediately
because He is the one who is creating this situation
God
build in any place, for example
as informational
as well as physical Reality

but by analogy it turns out to be just Soul
maybe it means to build a situation of overcoming
in the information space

if we want to involve the physical body as well
as an integral and organic structure of the World
and parts of the Soul
then we can do it inside
only one cell

and for this only for just
we need to archive as much information as possible
in one cell
and to make it as healthy as possible there
so that she would simply normalize the physical body
your own

and the result is a normalization of the physical body
through the action of the Soul
by accumulating information in the cell
this is overcoming the task at hand

Well , when they say that "there is, for example , an answer to any problem"
then first of all the answer is found
in a single human cell

just take a closer look
concentration
primary level of the logical phase of Consciousness
your very own personal cell

i.e. the answer is not taken from somewhere
as a rule, there from some distant Reality
I can just give you an example of a situation
when, for example, I was solving some problems at the university there
there are complex problems in general mechanics
where there are various spatial structures

and when the problem is solved
but the answer is always visible
well, first of all, it's enough, yes, it's boring to decide
because the answer is always known
and you have to think of something else around there

but the answer is always the same
Well, I have always physically seen the glow
coming from a specific cell
For example there is no specific finger there

and at the same time well let's say I spent half an hour there
's there after all For example there are several tasks to complete
to the level of a formal relationship there
with some formulas
and still got the same answer
which is always in front of me
and in such a numerical form
he was basically always in front of me and "hung" as if

that's when I say "he was hanging" he
the concentration of light came from the finger
and it was hanging somewhere at that level there yes optical vision

it turns out that from the point of view of that
that the answer itself may be there
i.e. glow in one place
and the answer may be as if numerical in another
this is where the logical phase of Consciousness is fixed

also at the Physical Body of the One God
at the Physical Body of the One God
the answer itself, i.e. the concept of "answer"
it is a physically perceived environment

It is precisely He who perceives Reality
and it turns out that His Perception and Action
it's the same thing for him

i.e. for Him
this is more by the way, after all, it is a more complicated level
be careful here
Perception and Action to Create Perception
for the Physical Body of the One God
it's the same thing

and therefore He can naturally
to perceive some Reality
there, well, in another place, for example, yes
and at the same time be physically in one

i.e. I'm telling you now
mechanism of creation of Reality
from the point of view of the Physical Body of the One God
And
physical body of a person
as forms
and as a person who has a Soul
which can act
at any distance at unlimited distance

and here is the comparison
if God has any state and distance is unlimited
then for the Soul of a person it is the same

i.e. it turns out that the Soul of a person by action
most consistent
To the Physical Body of the One God

by the effect on Reality
from the point of view
informative
logical
and even physical natural action

and that's when we talk about collective Consciousness
here is according to my Teaching on dissemination
the knowledge of Salvation itself must be instantaneous
and even more so universal knowledge, for example about God

then here we can highlight the next level
or what about the attainment of knowledge, for example, well as if of this nature

what if we want to consider

level of knowledge about a person
that's exactly what I did to prepare this level
and showing where the person is
here is a full level of self-government
full level of implementation
both myself and the whole world, yes
as if a very maximally harmonious level

then let's say if we consider the first level
this is the level of Salvation and harmonious development
consider well, basically the same level
development plan
where there are tasks of understanding
precisely the Actions of God
and consider for example the level About God
view level About Love
for example About Eternal Life
then About the Soul
then About the Spirit
and then we can already consider About Man
then the next level is about God and Man

where God gives exactly the primary level
and the Man who gives
Well in general, the level of one's own development
and in general the level is as if at the same time
fulfilling God's tasks

where is god
He is not standing in front of him.
as there for example, indicating or ordering
He's just showing off.
this is how it should be done
and already in the will of man, for example yes do it
or immediately
or through overcoming again

and that's when we look at the different levels
they basically can't be said
that they often
somewhere there in Perception in different places are located
sometimes at the level of Perception
it's the same thing in terms of Perception

but when we talk about God
this is still a fundamental level of Perception

and in this case we can say it is already integrated
still about God and about man
when we look at some of ^{them}
the levels of Perception that I spoke about
and which could
as simply volumes of information
^{how to} light up
what needs to be done next
for ^{example}, so that more comprehensive, more complete information
allowed to solve the issue there ^{as if} right away

and therefore the more ^{well} accumulated knowledge
the more knowledge
^{or something} more general
or more integral
separated ^{there for example} on levels
to some sections
the more we can say comprehensively
about the system, ^{yes}, some kind of
about the problem in principle

and here is a single level of, ^{as it were}, systemic overcoming
which can immediately spread to everyone
this is the one in general segment, so to speak
a specific segment of even Perception

the level is still a more generalized system
which often implies
not there, not higher, not lower
but simply the level from the point of view of ^{what}
^{Well} there is a horizontal, there is a vertical plan
even in mechanics, ^{as it were}, of an optical plan

and segment
it is a rigidly fixed system
which is located in a specific place

and that's when we look at
some specific segment of Perception
which shines with a certain optical plane

and this optics is spread to everyone at once
then the more knowledge we have
the more we overcome
and often we can do it with one beam
overcome everything at once

and here is the organization of this beam
it goes the same way
how the Physical Body of the One God is organized

that's when it gets organized
The Physical Body of the One God
it is organized according to the principle of solution
anyone standing in front of her
well, before this system, as it were
i.e. the physical body
all the consequences of this body
questions facing this system

i.e. before Him
before the Physical Body of the One God
the task is to organize such an impulse
to create a problem
could be instantly de-accumulated
i.e. it is sparse and, for example, should disappear
as soon as there are a number of factors

i.e. taking into account some third factors
where he works constantly
Macro level of all connections

and that's when you come like this
to the Physical Body of the One God
then you see His Face
i.e., it is the individual person
when taking into account precisely the maximum factors at all levels
or at least even on some of them

i.e. some are part of the Face

if you go to the accounting level
you see the whole Face

but when you remember that
when you look into a person's face
you have almost all the information
i.e. contact

and you have practically
well the whole level of knowledge and even mutual
you help him there instantly or he does the same to you

and when you see even the Face
means the Physical Body of the One God
you actually solve all the issues
as self-knowledge
as well as integral, as if generalized
and at the same time a private solution to all problems

and it turns out that this knowledge is enough
get to the bottom of the problem
and the problems just fall apart

well, i.e., a disease is cured there, for example
issues of instant integration are being resolved
or a private level of knowledge transfer
necessary for people

i.e. you get an exact coordinate system everywhere

and if for example we consider
the concept there that exists in general in terms of that
that there is a certain concept
that there is some kind of "non-living matter"
like the stones there
and there is well let's assume there "alive" in the collective Consciousness

then for the Physical Body of the One God
"living matter" it is, well, from the point of view of His Perception
can always be Eternally alive by analogy with Himself

and on the other hand the so-called "non-living"
this is a platform
i.e. on what can "living matter" move, as it were?
in the understanding of collective Consciousness
there are people moving on the ground there

and from this point of view
You can always exclude the concept of "inanimate matter"
for "live"
it is enough to just fix the base
for the development of "living"

i.e. if we select a segment in Consciousness
exactly well as if fixing the "soil", i.e. the basis
and highlight this segment like this
how does this distinguish the Physical Body of the One God

then everyone who walks on this "soil"
they will walk forever

and if for example Well there is some randomness there, yes
that some representative there
there is something "alive" and as if in a collective Consciousness of the plan
hits
in the system there is possible biological decay
then there is no place for this Reality anymore

because there are only two forms of Perception
form what they wear
representatives well so let's say "living matter"
these are people, animals , plants, etc.
as if the animal world plant
and in general, strictly speaking, this "living world" itself

and it turns out that fixing two parameters
gives practically
Well, it's pretty clear Infinite development
in terms of what if this is a rigid fixation

i.e. if you fix it exactly like this
and not change Reality
then it turns out that there are
only two forms of Reality
of the so-called "living World" walk on ?
and, in fact, the carrier itself is some stones, soil, etc.

and it turns out that since there is no third
then any information concerning the third plan
let's assume there there is biological death
or some similar facts
even there suppose illnesses and injuries, etc.
can be easily excluded
just by fixation
but for this you need to see how it turns out
Soul of the Physical Body of the One God
just as the Soul looks
Physical Body of the One God

and as an element of treatment
Well for example, you can use this method in this way
what does it mean exactly to overcome
possible negative situation
consists in the fact that

that is fixed only on just a very simple
inherent in the Perception of the Physical Body of the One God
a very simple situation related to that
what is it for Him
in general, there may not be another Reality in principle
if He for example let him take and rigidly fix such a system

and it turns out that the main thing here is
be able to do and look like this
with your Soul
how the Soul of the Physical Body of the One God looks

and how do we know your Soul
works closest in terms of functions
as the Physical Body of the One God

then you can just do it for only
translate Perception
from the Physical Body of the One God
to His Soul

i.e. since He has an informative Reality
coincides with physical
then it turns out that His Soul creates His Body
at almost any time
Well as if one of the functions is the first function

and the element of creation is obtained
this is what connects
The Physical Body of the One God
With
His Soul
in Human Perception

therefore the Soul of man is connected with the Soul of God
precisely by creation
creation

and that's when in the act of creation
we will consider the following process
By the way, it is very important
well, as if in a deep sense of understanding the World

what for the Physical Body of the One God
the element of Perception is so developed
that he perceives the next element

as if with an anticipatory as if pre-anticipatory action

i.e. if you think about it
into the information organization system
then He must perceive it this way
so that every element of Reality
and was created at the same time
and existed at the same time
and moreover there were foundations
for creation for existence

i.e. it turns out to be a very capacious system
and here is the projection of this multi-capacity system
this is the Spirit of the Physical Body of the One God

i.e. where is all this perceived

on His Spirit

and when we see that the Spirit
precisely possessing Infinite properties
at any point Infinite
then the Spirit
this is a platform for the physical body of a person

and so I brought it to that
that the hard and fixed Reality
well, like on which the person is located
there the elements of the nature of the soil exactly mean
Well, soils to a greater extent
where does a man go yes
then this is the Spirit
the state of the Spirit of the Physical Body of the One God

and therefore if we consider
Macro level well let's say to Infinity
then it is clear that the state of the Spirit
may not change for a long time

Well, how is this typical of the human psyche ?
He can have a state of mind there
have a long enough time even
and then there depending on the reasons
change or is there psychology of perception

that's what God does

Perception

these are the actions of people

and when people act somehow

His Perception Changes

and the state of the Spirit changes

changes there for example, volcanoes and earthquakes OCCUR there, etc.

and when you consider

Spiritual component

Physical Body of the One God

as a precisely rigidly fixed Reality

then all that remains is just for everything else

attribute all other states

Physical Body of the One God

including His own Physical Body

Well, a person already

who walks on the same Earth

but when He walks on the same Earth

He faces the same problems

nutrition

so that every person learns ^{yes}

technologies of Eternal development, etc., etc.

it turns out that He is connected

in terms of contact with one's own Spirit

with the same physical matter

i.e. the investigative system

as if all external Macroreality

it accumulates in Himself

i.e. He is the Bearer of all Reality

although he is also a human being

and when a person sees this

i.e. sees this flow

he can learn almost any knowledge

which he needs for Eternal development

it's just that when he sees it even speculatively

for example I told this

if this is constantly taken into account

then knowledge is already inexhaustible

to overcome, generally speaking, any situation

in the creative aspect of its development

i.e. any information in this case is surmountable

I showed it here
in general a fundamentally important point
in management
that any information that requires overcoming
it is always surmountable
and I pointed at just about everything
on the comparison of optical phases
well and on the division
what is the optical phase
what is ^{da}
highlighting precisely the optical phase of the Spirit
as a system of fixing Reality

and therefore as a management
you will now make the following control

you have your own personal tasks
well there is a task of ^{Macrosalvation} of Eternal development

take the tasks and divide them very simply
just by two components
truth called in management mentally
that the platform is the Spirit
Spirit of the Physical Body of the One God
and everything else is what you need
and there is no third option
there is no problem option there

and now do this management
and you will see what else you definitely need to see
as if by your personal Spirit to understand
that the problem really doesn't exist anymore
in information as such

you need to see that in all the information
your problem does not exist

i.e. you do this management
and I will work with you

at the same time when you do this control
you try to make it like this
so that your management would still be desirable

as if almost instantaneous

i.e. you could see

well, appropriate

as if it were a level of some kind of pre-action

i.e. you should see that your action

for example which you do

it has already been implemented but at some level of yours

for example, by your Spirit

before this was implemented

i.e. everything already exists

this is the principle

i.e. there is always a solution to the problem

i.e. well for example, yes, in mathematics there is always an answer

in events there is always a way to solve the problem

and that's when you see this path

you see

as the Physical Body of the One God

acts together at the same time as you

i.e. you see what it means in general

you have as well let's say this aspect of management

which can be considered an aspect of management exactly like this

what the Physical Body of the One God makes it

i.e. accuracy yes

here is the accuracy

this level often level at the same time

and synchronization of the speed of action

i.e. if there is optical action

Physical Body of the One God

then speed synchronization

this is already precision

true you can act in principle

in any other area

Well, for example, when transferring knowledge

I have such a simple universal principle

For example there I diagnose planes

there are some other objects and technical ones

or is treatment taking place?

then each of you who achieves results in management

in this case the control result can be achieved

well, in any sphere , generally speaking

then the transfer of this action ^{yes}

universal, as it were, module of action

he is often exactly the same

i.e. well, just different applications

and it turns out that the application level

that this is ^{for example} art or treatment

or some personal levels of Perception

or is it just inner perfection

fulfillment of the tasks of the Soul

which is very ^{well} in general, in essence, it is often determined

precisely as a logical level of a person

and in principle a person always solves problems

first of all, the Soul of one's own

and when you see that the principle is universal

it turns out that even if you achieve

one control in a single fact

then it won't be a problem for you to apply it, ^{for example}

to any aspect of Reality

technical in principle there is some kind of

in general, ^{for example}, related to management

distant elements of Reality

or relating to

to some ^{there let's assume} star metagalaxies

so that by chance there ^{well for example, there} was no "sticking together"

some galaxies

and there were no problems there for the life of civilization

so it turns out that the solution to all these issues

it always refers to the system

it is precisely when you are sure

based on the actions you have taken

and the meaning of this management is also in that

what should always be guaranteed

that Eternal development will always be there already because

what do you do this all the time

your action must be a guarantee

unconditional 100% guarantee

the presence of Eternal development

since it is already clear that it exists
in information
but here I am just laying it out
how to organize events
The Physical Body of the One God

because the Physical Body of the One God
always organizes events correctly
and events are always directed to Him
towards Eternal development
at any point

and it turns out that this "correctness of organization"
it is like a decomposition
there, well, by vectors, there by some components
specific event

and therefore it turns out that here
this is, well, actually, decomposition
some kind of sequential or spatial layout
these events
this is what is expressed in the form of the Will of God

i.e. the Will of God is that vector
around which they are built
well, a kind of "building blocks" of knowledge development

in relation to a person
means the Will of the Physical Body of the One God
this is the physical body of a person
in the aggregate action
i.e. in the action of the Soul
in action there are thoughts
in action simply in physical action
in the state of health there, etc.

and so when you try to identify
The will of God
well there with the tasks of the individual
then here you can first of all
to highlight the tasks of the individual, well, that means, like, that level
when you see God, well, sort of through everyone's eyes

there is such a level as collective and Consciousness
God is the Creator of everything

and also you can see the level
how, in general, what is your personal opinion about God

when you combine let's say the collective Consciousness
with your personal opinion
then you see that God is open before you and further

i.e. you see the Face
and then you see already and well there are Shoulders Hands yes
i.e. you see the entire Physical Body of God

the most unusual thing about all this
that you can see specific clothes there
physical body, well, a person
i.e. you see what He is wearing and what He is doing
there are habits
i.e. you see the Personality of God

and when you see that the Personality of God
it is, in general, personified
with the level of collective Consciousness

i.e. when you see it works
and both private and, in general, general
then you see that the whole society
practical development of society
this is the realization of God

i.e. the comprehension of His Tasks there
who stand before society in front of people

and so these are like counter tasks
which He gives to the people of civilization

and therefore He shows
what about His Physical Body
practically understandable
for understanding by all systems

i.e. since society develops
towards understanding the tasks
this means that the whole society strives for development
understanding that society will achieve that development
that it will understand the tasks
coming from the Physical Body of the One God

and that's why it's worth it, for example there is often a question about the coming of ^{yes}

when there is simply the coming of the Physical Body
and all issues are resolved

because that's exactly how the question is posed here
that the Body is the source of True knowledge at the same time

but when we look deeper into the question of the coming
here is the mechanism itself and its preparation there
then it turns out that

Firstly, the concept of "coming" is more like this
that there are different religious systems there ^{yes}
there are public creative organizations there
social systems, etc.

then here it turns out
that is the concept "for all systems"
after all, here in the coming
this is, first of all, the knowledge that allows people
implement management level ^{yes}

for example the coming of Jesus Christ
for the Orthodox this is an immediate solution to the problem

but if we consider some other systems
even religious ones
then there must be some similar mechanism there anyway
but in their collective Consciousness
other systems of perception are possible naturally

and it turns out that for them
First of all, your personal experience will be important
what will they personally learn ^{yes}

and it turns out that the concept of "coming"
this is some kind of personal knowledge
received by a specific person
i.e. the physical body of a person

and the first experience
this is still a development towards the Eternity of the body
^{generally speaking,} the real Eternity of the body at the current moment
when man is truly Eternal
but he just doesn't check, for example

i.e. there is such a principle not to check
and just follow on and teach others

here is the True criterion of that
that the body is developing precisely in the direction of Eternity
is
knowledge transfer criterion
i.e. overcoming by the collective Consciousness

and when you see this overcoming
through a collective plan
i.e. the desire for the concept of God as a Person
to the realization of His Actions
leads to the fact that you are already overcoming
it's already so bad that the problem doesn't even form

when a lot of work is done in one perspective
then the problem may naturally not form

and this is precisely the primary meaning of overcoming
the Physical Body of the One God has
this is the place where
Soul
Spirit
The Physical Body of the One God
His Consciousness
i.e. all components of the Personality
Physical Body of the One God
and including naturally His Physical Body
they are in one place and in complete harmony
in relation to others
and to myself

i.e. God as a Person has
the same level of harmony between internal and external
and this is where there are no problems

i.e. they are not that
they don't need to be solved
there are none

and therefore here as I showed
the mechanism for achieving this state
for the Physical Body of the One God
This is a collective aspiration of people
to knowledge

from the Physical Body of the One God
and such a level of overcoming in general
which would be private and public
provided that each individual is completely free
I set it as, in general, well, it turns out to be a single goal

when we generally decide the issue here
in terms of management
then here it turns out
that we make governance universal already because
that the control is carried out with absolute precision
and in general even canonically accurate
because we just solve any problem
took and excluded
from the level of, as it were, even its fixation in Reality
and that's all

and it will match
exactly the same action
as the action of the Physical Body of the One God

thus this method allows to solve problems
at that level
that even in information
there is no information left about the problem

this is a very fundamental level
in his practice
try to work more often and more intensively
and apply as often as possible
and as to private tasks, completely private
as well as to macrotasks

i.e. and look that the level of achievement is the same by the way
here you can understand very clearly
what and to see is easy to verify

that the solution of a private and macro problem
often these are the same thing at the management level

This is where I ended today's seminar

thank you for your attention
