

GRIGORY GRABOVOY
The Teaching of Love
25.07.2003

Hello again
Today I present
the following structure of my Teaching

and if we consider
for example, the fact that earlier structures
which are also developing in parallel
This is my Teaching about Salvation and harmonious development

then this is the Teaching of Grigori Grabovoi
about God
and now I am showing the Teachings of Grigori Grabovoi
about Love

in this case we are talking about
that in this particular lecture at today's seminar
I open practically, well, let's say, fundamental
applied principles
of this structural direction

and further development will occur
as a common methodological system
development of the structure of the Teaching
that there will be applied methods and specifically applied
also to prevent a possible global catastrophe
to ensure harmonious development
and to perform personal tasks in management

at the same time, mine is exactly if we consider it
treatment when I produce
if we consider the principle of my treatment
it is clear that the treatment uses a structure
exactly the one that God showed
as the creation of man by Love

therefore the treatment will also apply
to the structure of my Teaching about Love

so the topic of today's seminar
This is the Teaching of Grigori Grabovoi
about Love

and at the same time applied systems
are considered as now
i.e. how to apply this Teaching to your tasks
and this is how it will develop in the future
through, for example, your personal practice there

and also due to that
that I will add methodology
i.e. applied management methods

my Teaching about Love
based on the definition of Love
both by God and by man

i.e. when you look at the state of Love
well, from the point of view of my personal, for example , person
everyone knows that this is enough
bright and unambiguous there Perception
a feeling and impression are formed
when you don't consider the source as such
i.e. as a single source

and when you enter this glow
then you see that Love is given
initially
and at any point
and it seems like it comes from nowhere
i.e. these are the main characteristics of Love
from the point of view of, for example, the Salvation of All

then the same principle arises here
what is she
everywhere
Always
and is being considered
as the fundamental system of the World

when we do some action yes
here from God's point of view
action is love

i.e. we are considering the action
even if it is an intermediate action
as an action of God's Love
as in relation to the outside world
and in relation to Himself

i.e. God's Love for Himself is what we do
here's how it would be translated into Perception of action

if we do the action correctly and accurately
for example, there is a cure for stage four cancer
or Salvation immediately for Eternal time
for example from a global catastrophe
for God it is just a realization of Love
in relation to yourself and to the whole world

so when a person loves
it works almost immediately
as the Creator acts
and immediately as God acts

so it turns out that the action is in Love
this action, well, let 's say it's so fundamental
what does it affect
all questions at once
personalities
and the whole world
in one point, as if compressed concentrated Consciousness

so it turns out that in order to
to cure there
make resurrection resurrect yes
so that man may be resurrected
this is the next level yes this is the level of self-resurrection
so of course by the Action of God
we can see love
as if to say a heartfelt feeling coming from a person
i.e. penetrating everywhere
and not having any primary source

i.e. if you just take and ask a person
where does love come from
as a rule, well, there is no such obvious answer here
i.e. the source is not defined
It is clear that Love originally comes from God
but it's logically clear

therefore in Love
human action
i.e. the absence of a designation of a specific source
and also the man himself
and also the Action of God
in Love they are united
as a system of, as it were, universal action

as an action from you
and so the action to you

so here we can say
what is the physical body of a person
this is the Love of God
in relation to the outside world
i.e. the body that transforms the World yes

and by its Action
i.e. God acts exclusively by Love
therefore man is a product of Love
i.e. the material body of a person
this is also God's Love
in relation to the World

if we just even logically consider
such a design in management

then it turns out that when we consider
Love is like an action
then the concept of "logical control"
it doesn't really fit with the action of Love

because Love is beyond logic
if we want to suppose to use something
logical phase of control
then we must understand accordingly
where is God's logic?
docks
with Love for a person, for example, yes
Let's take a specific case
to a person

then there is already an applied structure in management
what gives us the ability to act and understand
consists in a person living , for example

i.e. the logical phase is clear
there is an external Reality
there is a possibility for a person to solve his own problems
i.e. external well as if a life structure
this is what concerns, as it were
providing the product there with your Love
i.e. a person
for God

then for a person it turns out that this is illogical

i.e. a system existing above logic

because if you ask a person a question
Here's what he did, for example, well, himself
for example, how God created man
God created all Reality

in this regard, what did the man do?

it turns out that in this regard
a person can only love
i.e. to go beyond
external system of control, as it were

and therefore here and there it correlates
Action of God
With
Love of man
we are already getting further practically
Well, the structure is quite clear
children are born there
the love of people there for each other
love for the outside world
but Love is also action
i.e. ensuring the creation of the external World

and when we follow this chain, which is generally logical
i.e. I try as if it is appropriate somewhere
somewhere to bring logic closer yes
to the concept of Love
then in human understanding

then we see that the narrowing
this kind of optical spectrum of thought development
leads to very specific places
showing that everything that surrounds us
this is also created at the level of Love
this is the manifestation of God's Love
in our action towards Him
in relation to what we do
there, well, there is His goal of Eternal development

then it turns out that Eternal development
this is what concerns each of us specifically
and in order to see Love there
deep in the Soul of the child there
who listens to some material there
there he is watching a lecture and a movie

then we see that this is exactly it
the penetration of Love for everyone
it is given by God in exactly the same way
i.e. God gives everyone so much Love
how much in general speaking to each other
and generally speaking, all together

that's why it turns out
what we can see in the Soul of a child
The love he can show there
or any person at all
and direct it towards creation
to the solution of the Eternal development
if we form ourselves
still an equivalent impulse
in relation to the whole world
but a purely individual impulse
in relation to our personal goals

and when we, for example, carry out this action
and again I'm trying to bring it up here
logical status
in relation to the principle of control, for example
then it turns out that Love is that
which is even in the pre-control area

for example there is a control area
pre-control area there
let's assume due to high speed characteristics
we can say
that we can consider the area of pre-management

but then it seems to physically exist
some limitation already
purely organic limitation
as if already clearly felt and recorded
on the physical body

i.e. if we go further
we see the function of our body
we see the events of our own personality in full

i.e. Love is completely open and completely transparent
the future of any person
if he looks at himself through Love
i.e. it is a very clear predictive system
logically determining

a fairly clear level of the event
if he loves constantly, i.e. he doesn't get confused

but if you don't get confused, you have to love it
all
constantly
and at the same time, well, do all the actions in Love
then the future is absolutely clear it is Eternal
it is Eternal, i.e. people do not get sick, etc.

it turns out that the action is external , yes
when we are there a person at work forgets yes
what you need to remember about that
what a person should love there for example
the thing he does
Well, that's if we go down, let's say
into the fundamental meaning of any action
similar to how God does it

then here it turns out
that the product is reproducible
so that a person could live like I described , for example
as, well , let's say, a model of that level
to strive for

then it turns out in every thing there in any
there, let's assume, a person produces
voice recorder video camera car
makes something out of carpentry tools
he must put in such Love
when it means something done or an action done
brings the same goal
what is the Purpose of God i.e. Eternal development

how to make any thing eternal
in fact, this is when we speak
about the action of Love
we are talking specifically about this

and Love does not have any ambiguous interpretations there
if in another control technology
where we are considering in this case
as a control system
this is already a logical status of Love
Well, I finally got some logic there, yes
then here the logic is a reflection of the process of Perception

then it turns out that we can

Well, let's say that it's there
some kind of carpentry thing produced
let it be, for example, some kind of wooden thing
it must exist there forever in information
and then it will be done with Love
i.e. as God the Creator does it

and in principle this also applies
to any ^{there} to the event to any

for example a painting made with Love
exists forever
it is initially clear that information exists forever

in principle, a thing made even from wood
if it is made in the form of Love
things and Peace ^{yes}
things and people
then it exists forever
i.e. this is the base from which the World grows Eternally
i.e. it develops there Eternally

i.e. it is enough to do one

Well, for example, in ancient times there was a wooden spoon
with love

at the same time, the form gave life to, for example, an entire civilization ^{there}
at some point the civilization was not destroyed
for example, due to a nuclear explosion

i.e. Love concerns everyone
even if it is ^{not} made locally
and in relation to some specific thing

i.e. in relation to

Well, for example, not only to the life of the ^{current} generation
but generally speaking it is Eternity
manifested in personality

here in this formulation
Eternity manifested in personality
this is Love, the action of man

a person acting with Love
he manifests Eternity
going
from your own physical ^{body}

if now, well, let's say by analogy

with such or something like a schematic system
this is done the other way around, i.e. directed at a person
then it turns out to be Peace
in which a person is in which he walks
he loves a person since a person moves here

i.e. there is external Love
Love as if of the external, well there, tree of the World of air
in general there are not only people there, so to speak, yes

and when do we start
enter into this system of the Universe
then it turns out that the outside world
any part of the outer world
there is like a segment of air any plant
everything is built on simultaneous Love

here is the basic system
today's seminar topic
that the simultaneity of Love
each object of information
gives the present tense
i.e. any molecule of this leaflet
created precisely by the simultaneity of Love

but then the question arises
is some element of this sheet created
a person who lived, let's say, there a long time ago , yes
many there thousands of years ago and more
how is he involved here

then it turns out that his actions are his birth
approximated by this plant
almost to this point
i.e. manifested by the Creator
Love
at his birth
this is the Love of this leaf
which I looked at
and in general in any event of the World

i.e. for Love there is only one known path
here is the action of the Love of the outer World
this is what God does all at once and now
i.e. we understand the work i.e. the Action of God

and if we talk about work for example
about some Action of God

then describe Love in words
it is what is ^{there} and beyond verbal expression

and when we talk about the action of the word
i.e. initially we consider the word level
that is the level of Love
in this case it is like what is located
after the word
and to the word

i.e. if we use this technology generally speaking
^{example,} to treat a disease
I'm even speaking very specifically here
then it is enough to consider the radiance of Love
as a pre-action, i.e. before the onset of the disease
and after it is cured

i.e. Love is this action it is like this
that Love does not exist in the disease system

and when we consider, as it were,
before and after
then we get a cure
or we get the Norm of Events

where there is Love, there in principle cannot be
negative system of events
here is the level that originally came from God

so when we understand this level
we can build events quite freely
they are ^{like} rivers of mercury ^{there}
flow quite quickly
and flow immediately
through clear and precise channels
because as i said
Love has no secondary interpretation ^{there}.

Love is Love
there "near Love" or something similar like that
does not exist
in the system of the fundamental Universe

based on this we can quite clearly state in fact
build
the entire event area
where each element will be an element of Eternity
as I said

there is a point of simultaneous unification
practically love everyone there yes
in relation to the World

because man is born with Love
only the loving one comes into this world
and it's really there interacts
well, in general, with the same system of Love, as it were, of the external World
in relation to him

i.e. harmony is mutual Love
which is not always considered
apparently in such a physiological sense

but if we consider that air
This is, so to speak, living matter
Yes, we know that there is photosynthesis.
Well, for example, we abstract ourselves
and we say "yes, this is living matter"

then it turns out that air gives life to a person
this means that the air loves man , etc.

and when we kind of look at the control system like this
what for example we are considering
Well, not only air, but also intermolecular interactions
in the very air as if mutual Love of similar systems
which create some sort of intellectual level

it turns out that any system
intelligent system
i.e. air is an intelligent system yes
i.e. a reasonable system

there suppose there is soil and environment
This is a reasonable system
and this is what I came to when I started the topic of the seminar
namely my Teaching about Love

i.e. we see that Love gives to everyone
the highest possible intellectual status
any system i.e. the World

and this says that here
each object of information
he is maximally self-expressive
and yet there is no there
let's assume that some rights are being infringed

there is no one above, no one below
everyone is at a decent and extremely high level
and this level is the level of approaching God

but to God
each object of information
close equally real

and that's why it turns out
that we have here a completely universal system
for fruitful Thinking in general

i.e. if a question arises
in what field to think for example yes
it's easier to think in the field of Love for the World, yes
on the field of Love well there to yourself

although many of the rescuers often forget about themselves, for example
let's assume yes for a while
but through the World they actually see themselves
i.e. physically logically they seem to be
They save more and don't think about themselves
but it turns out that through the World they still see themselves
as acting as if in the Soul of God

i.e. God sends them
here are the messengers of God
they can love in action
according to the main tasks of the mission, let's say

and that's why it turns out here
what if you
Well, build your own management methodology
exclusively on Love
then you get Macro access right away
and immediately a completely clear adherence to God's tasks
i.e. the One God-Creator

because we have
a completely unambiguous and clear thought here
that thought is built on Love
this is a clear leading thought
precisely to the Eternal development of the Eternal Peace
and to the fact that you think simultaneously with God

and when you think at the same time as God
you feel and see
that your body is absolutely healthy, harmonious and eternal

in your own life

i.e. Eternity in your own life
in this case it is quite clearly visible
it's like in the synchronicity of the amplitudes of Thinking
if you translate it somewhere into this language or something
more mechanistic understanding

but in fact here is the organic matter of the human body
this is what he perceives
as in fact in many ways the growth of God's Love
One God the Creator

i.e. it is precisely growth that determines, for example, the line of fate
i.e. if a person feels this growth
Well, it's a kind of optical pressure
i.e. further before a person is born
he feels pressure in his back
for example, yes, in the coccygeal region
and birth occurs
but he experiences this before he is born
i.e. he experiences even before conception

i.e. his Soul perceives so clearly
physical Reality
that it does not separate from Reality
your own non-physical essence there
even before conception, let's assume

but it is there
the space of existence of God in essence
i.e. God is at the level of human sensations
almost in the same condition
For Him it makes no difference
there is physical
not physical
He can do both, yes.

and therefore He is always physically manifested
that's exactly why
because there is no difference
this means that all sides and manifestations exist

and that's why when I say
about , for example, the Physical Body of the One God
then the One God is quite there, let's say so
in many ways in many ways
even lives somehow normally

like a normal person
but the space of Love for Him is the ordinary World
what all people perceive
well , basically, you and I
i.e. any person perceives

and when we consider the principle of management
coming from for example each
then we see that Love is what connects us
already in the final act of Eternal life

if you ask yourself the question
and with Eternal development in the future
what does the world look like in general

then this is the World of Love in essence
i.e. things are built there , well, in the sense of a segment
there some wooden spoon is being built with Love, etc.
i.e. all objects of information are built on Love
precisely to the World
to yourself
to God, i.e. to Eternal development

and when you see Love for God as the way
then it is clear that Love for God is you yourself in essence
but you are Eternal

and when you are already moving along this path
it is clear that the city, well, let's say, is shining and bright
future city or is it not necessarily a city yes
the Reality that will physically exist in the future
this is Reality where for her there is no difference either
in a state

i.e. God can be in the Physical and Spiritual
those. It will not be destroyed
there in the informational state
and therefore in the Eternal physical
you see, the transition here is very similar
well, it's kind of banal, it seems logically simple
it means He is in the Eternal

then that city will also be or that area yes
it will be such that it is essentially indestructible
because for her it doesn't make any difference anymore either
as if because she is in phase
at the logical level in pre-action
i.e. before a destructive event is possible

of this matter

if we enter at this level
to the level of logic of known physical laws
then it's clear why you can't just take and split the molecule
there, well, with a knife, for example, yes
because there is a level here
which in physical things it is already hidden
from the possibility of influence

i.e. there are things that are close to us
but they cannot be modified in any way, for example
there macro object
you can't pick off an atom or a molecule there with a knife

here it turns out that God is showing us
that even we have created
well, by logical actions
there is a table created yes
carries a structure that cannot be changed
external control there by any physical means

well, for example, if a nuclear charge explodes there
then in general it can influence
but then the question arises

and how to make a nuclear explosion
did not influence our creation there

so we took something from there
Well, they made some kind of thing out of wood
how to make sure that a nuclear charge doesn't affect

then it turns out we should love, well, so much yes
so that a nuclear charge could not destroy
there is our creation or there is our event

then it turns out that this is it
so strong love
this is already individual Love
i.e. a person sees it absolutely clearly
Well, there is Love for a specific person, yes
to a person of the opposite sex
Love, for example, well, concerning that
that in the prognosis you see the correct action
i.e. exact or there are happy actions

that's why when you want to watch

very far from the events
and that they were good
you have to love these events
very distant

let it be events for example there ten-year system
well, that is, in terms of management
for example ten years ahead yes
although here one can generally say
and ten years ago , for example

to restore it to normal
future events
you need to love the past for example yes
and then you level out, well, the tactical level of events

i.e. if you like for example there ten years ago
all your events, well, that is, with Love
treated with love
then for the year ahead you made yourself a Norm of events, etc.

if you love there for a million years ahead
all events
then somewhere in there already several thousand years
you are entering a phase
that you still love everyone

i.e. God created it this way
that the further you develop
the more you love everyone

and it turns out that you, well , come
to your own Truth
that even in a logical sense
The eternal body is the body of Love
i.e. a body that loves everyone and everyone loves it

well, i.e. in different ways of course, i.e. at the level of ordinary ones
the concept of Love is not some kind of new form
this is not some new synthesis of Love for the future
this is normal
what is always known to man
but at the expense of the precision of development
objects become Eternal

i.e. Love translates a person's life
in the Eternal structure naturally
i.e. a person may not notice it

if we assume, well, sort of logically
maybe there is no way to fix it

therefore the person who achieves
a certain phase of control
and nothing happens to him there
moments, well, let's assume there is physical influence
this is often achievable because he is in Love
and he just takes it naturally

therefore, as a control system
Love can be perceived as a level of such
what a person has
a completely precise concrete mechanism as if following yes
well, let's say a certain lighthouse that is located
not in space
not in time
and you may not even relate this concept
the concept of Love there
with some specific action

but it is enough to see Love
and go towards Love
and it will be right

and then it turns out
what if let's say you don't want to recover there
or you need to decide
bring some event to the norm
then these are absolutely strict criteria that must be followed

then you are 100 % sure you won't make a mistake
you will immediately solve the problem of harmonious development
immediately Eternal life
and most importantly, you will follow it with absolute certainty
of his own personality

because for the individual
The main thing is of course Love

and when you go
to the level of, well, sort of comprehensive management
i.e. you have it there Macro task
within the framework of its solution, various situations arise

then this is exactly the lighthouse of Love that is located
again, as if outside of space even

i.e. there is no space or time there at all
then naturally you won't get lost anymore

i.e. neither the concept of space nor the concept of time
no concept of any other at all
more processes and events there
it doesn't affect you anymore

and this inner peace arises
i.e. the peace of Love
which brings closer
Well, this would seem like an ideal future
in reality it should be like this
when any object becomes Eternal
and you see how Eternity begins to build you

i.e. you see how you are actually being built
at the level of this, well, sort of flow of Eternity
which is coming to you

i.e. there is a point of entry into a person
where it constantly enters
it is precisely this Eternal peculiar stream

and when you see it
you see that this is Love
she enters
for example there in the heart through the body yes
and at the same time, the rest of the body grows from the heart
it is a constant process of construction
it is God who constantly creates you in fact

and when you master this technology, well, you master it
you see that you can actually
Well, start doing some things yourself

i.e. to bring this flow closer faster
or somehow record it there to study
then you see
what is the entry point of this level
into your body
well, like an external luminous stream
this is the point that is Eternal
and is located
as if both in your body and outside the body

it's like a cage actually
it is exactly the same as that of the One God

and this cell begins in a certain way
manifest itself , well, actually, including in events
i.e. sometimes in some events
or future distant or extreme
it periodically lights up

if very distant future events
you will see it locally
local cellular luminescence

if there are any events that need to be overcome
it starts to glow with a bright light
and you see there yes
as a person you see around you

then it turns out
that this glow that is around you
this is the outer world that is with you
overcomes
some extreme, well, for example, unfavorable event

i.e. the world helps you
and in this cage
this is what is being concentrated here, this unification of the World's help
it is the presence of God
and at the same time, yes, an external, as it were, transitional level
through which Love passes into you
and builds your body

then it turns out that when you start thinking
about this cell logically
then you see that a heart actually grows out of it
and in such a harmonious, calm way
this is a very powerful mechanism for renewing the heart
well or there blood vessels

you can also go further from the heart
there through the thyroid gland
and update, for example, restore the brain, etc.

i.e. it is enough to know only one entry point
for example, in general, there is such a process that is quite understandable to everyone
as external Love
and even more so when it is Love, for example, of the One God

and when did you find exactly such a cell
as the One God

in my body
then you see what the task really means
this is the Eternal development
the task is to have this cell there For example
not only in one version but throughout the whole body

it is a task of awareness and understanding of that
like the same cell or a group of such cells
organizes the Physical Body of the One God there

so here is self-formation
Physical Body of the One God
This is the Love that He shows to everyone
i.e. it is a formation mechanism

and when you realize this
you see that instantly this type of cell
they start to grow throughout the body

and the only difference is that
that the One God consists entirely of these cells
and when you understand you have an approximate type

so that the types match and it is identical
and you would not be separated in your Perception
from the Physical Body of the One God
it's enough to just love
practically at the same time
if the matrix cell itself
and a similar one, i.e. a typical cell

and they will close
you will get that you have an Eternal cell
but which you actually created within yourself

pay attention here
What is of fundamental importance here is that
that I gave you the technology now
when I said exactly the technology of Love
that you can create such things yourself
exactly this level

and when you start creating it
then immediately in a favorable way
events are naturally laid out
even distant ones, not to mention close ones, yes

you can go out

from some extreme situations
no matter how they affect you
even if something is happening somewhere nearby

and of course you can do it quite calmly
Well, it turns out that it can regenerate and restore itself

if at the same time you, well, don't spare time for yourself
because there is such a level
what does a person think that God gave him?
on a certain path for a certain time
and he begins to save time in relation to himself

so here in Love
time it is often instantaneous and it is constant
i.e. one impulse of Love
gives Infinite time for regeneration
i.e. it is perceived as Infinite

you just need to treat it with love
to some of its own cellular system
and the body perceives this as an Infinite impulse

when will you learn how to do it
there internally lay out these waves
according to the structure of its organism, managerially in fact
you will see that you can
build your body from the inside like this
that the body perceives very harmoniously
the outside world

i.e. the transitional level of this World
in relation to
well, like the gentle movement of the wind
all the time near this entrance cell
it is precisely Divine Love that seems to sway
and the world becomes very favorable
very, well, sort of prosperous

keep in mind that at this moment
The world is truly prosperous
at this moment

and when you, for example, well after some time
you start doing other things
it's as if some household chores are starting to distract you
and the World begins to acquire a discrete meaning
and something starts to displease you

The world is really becoming like this

i.e. the state of Love
state of harmony of the World
this is what is really happening
Love is the most precise coordinator of the Reality of action

if you pay attention later
that at that moment when you were counting
that you were practically in the norm
and everything was harmonious for you

at that moment it definitely didn't happen
no nuclear explosion anywhere there
well, that is, it definitely didn't concern you at that moment
no negative information

and when you, for example, move on
let's say well in this feeling
in the realization that this can be done
the question arises how to prolong this moment
well, like forever and ever
i.e. in ordinary affairs how to be able to cope with the situation

and then, according to my Teaching about Love
the same transmission system appears again

i.e. if at least one person doesn't know how to do it
then anyway, well, let's say with joint efforts
can you compensate there, keep it there yes
the situation for quite a long time

but in everyone's soul it's all the same
this is the light of Love for another
it will be aimed at that
that this person must understand this from the inside
he must do it himself
then the world will be truly harmonious

then there will be no concept of "death" there
it is clear that then naturally they are all resurrected
Well, first of all, they will clearly manifest themselves there on a physical level
they will simply return to their places

and secondly, the concept of "death"
it logically just disappears here

because initially we come
into the space of God's Life
and there is simply no death there at all

it's clear that here
all external elements of Reality
they will acquire primary meaning
provided that the memory is there too
naturally it doesn't rub off at all
i.e. everyone understood that there were biological deaths
and when is another space
there these laws are simply repealed
so there is a resurrection of everyone

and when you enter
Well, in these control systems, actually, even mentally
notice how the thought form is regenerated

i.e. when we talk about regeneration restoration
we can talk not only about the body there ^{yes}
we can talk about that
that it is possible to restore the form of thought

and at the same time
the restored thought is very favorable there
Well, let's say a person's head stops hurting there
he stops feeling the load
and in general he starts thinking quickly and productively ^{there}
this is where the powerful regeneration of the body comes from

then it turns out that Love
this is a means of restoring the Soul, in fact, ^{yes}
^{well} as a consequence
thoughts
Consciousness
and therefore the bodies

if we consider dense interaction
then from the point of view of a cell, ^{for example}
it turns out that ^{the} body is Love
from the point of view of your single cell
if you enter her Consciousness

and if you start moving up from ^{here}
then for cells it can often be not entirely clear either
if there is some disease somewhere
why are there such distortions here
cells are ^{generally} located in terms of social conditions

approximately in the same system

because Love is a kind of tuning fork
universal measurement system

how a person is in society
where does he live in Macromir
and the cells in the body feel about the same way

if you are aligning the external system
then you restore the cells too

and vice versa, restoring oneself
restoring the cellular level
you align the external system to the Norm

i.e. it turns out that self-medication
self-healing ability
This is a very powerful regulatory mechanism
as well as the outside world

and our inner world, well, that is, the physical one, yes
the physical body of a person
this is the canonical regulator of the entire World as a whole
if a person perceives his body
as the body of Love

i.e. he sees the mechanisms of the development of Love
which were originally given by God

and then he comes to God already
in concrete in personal action
just loving

and it turns out that Love is personal
personified action of God
through personality

i.e. it is completely direct, clear and unambiguous
execution of the task
well, although a person often does not perceive this as some kind of task
and that's how it is
for man in this manifestation
he generally perceives the whole world
then it turns out that his mechanism of Perception
equalized
to the mechanism of God's Perception
this is absolutely complete freedom of personality

and when you see this you can
well, they practically disappear often so that it's as if they weren't even there
there absolutely , really complicated diseases
instantly transform restore events
so it's as if the negative event never happened
there was none at all, i.e. there is not even a hint left in the information

i.e. Love is a means of such access and control
that you work at the level of
how God himself actually works
i.e. information from the point of view of external observation
becomes identical

i.e. you changed it for the better
information
naturally it is always meant
the creative meaning of personal Eternal development
under no circumstances is this a question
even about the fact that it is about a creative meaning

Love is an exclusively creative meaning
management aimed at Eternity

so when you see Eternity
and as if aimed at Eternity
you get a comprehensive system
where events unfold like this
that God himself put them there
i.e. well, it's like God himself commanded it that way

and here in Love this is clearly evident
and at the same time you live freely and naturally
without any informational deformations

and you see the system this way
Well, maybe in your Perception
what if you for example react to a situation
let's say in general, comprehensively
at the level of the logic of Consciousness

then the Soul is a loving Soul
this is what creates Consciousness in action
i.e. if we say count
that there is a discrete level there
there Consciousness may be dissatisfied with something
The soul has some other tasks

then in Love it is a single system

and it turns out that the Spirit
it's like a kind of carrier of Love
this is an optical manifestation of Love
in relation to the World and to God
this is the Spirit from the point of view of Love

and in optics you perceive it like this
as you can see, there is your body at a great distance

for example, if you mentally imagine
that you are going very far there in some
well, there are many hundreds of kilometers away, even thousands of kilometers
away
just imagine that your body
that you are going somewhere there mentally
you see the further away the brighter the light

pay attention
the further you remove yourself
the brighter the concentrated light
coming from the heart and from Love

and when you see
you start to relax internally
i.e. you see a certain one there, actually
calm flow of relaxation
that everything is okay with you
and because if you are far away and here at the same time yes
then you have more freedom

this is the principle of freedom walking
from the Soul
from the Spirit
he gives what you see in Love
how God naturally lives in the form of a man
i.e. you begin to understand it

and when you understand
at the level of Love
you see that in reality it is not difficult for you to do this either
He lives Eternally and, in general, at the level of Love.
This is a very clear and accessible mechanism.

and when you start to see this action
in relation to for example
well, to some upcoming events

absolutely there which are nearby which you
do you always do them for example yes
ordinary events any actions of any person

that is the closest part of the event
in optics
this is the highest concentration of Love in the World
towards you

i.e. if you do well there in the morning you always have breakfast
that is the greatest luminosity of the World
closer to the skin
here you can enter the structure of the World
and get to any point in the world in control

Well, this is actually closer to clairvoyance, apparently
than to the level of clairvoyance as such

although it is possible to enter this system
how to unpack the events of the World
and see it as if already in the form of images
and so you know

and this is the knowledge that comes to you yes
from the outside world
this is what actually regulates the Norm
of your physical body
well, like a certain shell of Love that begins
from the segment closest to the body, in fact

and when you start to reason in this case, well,
You will notice that in the morning you have
well, it's like the inner gaze is constantly falling
approximately to the same comfortable place there
somewhere in the area of, for example, the heart in front of the skin

some people start to go inside as they get older
to the management
just like in my youth

then here the area is approximately one
this is the glow area
Where
Spirit
The soul of man
physical body information
God
and generally speaking all systems of the World

are in that
that a person approaches them in action

i.e. here is the approximation in action
this is actually the path of Love
i.e. essentially Love
this is ^{like} a very specific control route
physical body
in relation to external events

and pay attention to optics
that in Love only the Soul stands out very clearly
i.e. the Soul has
^{as if} a central matrix system of luminescence
like some kind of root

and all external information
physical body

God is both external and internal information
Spirit
Consciousness
have absolutely identical glow in optics

it turns out that it is the same as I described
if you look at yourself from a distance
The soul is something that is always ^{close} to you.
to your personality
and personality is often personified with the Soul

then external control system
this is what ^{well} when you look at yourself from a distance
you see you understand that God created you there
you see that in that
if you can mentally transport yourself like that
so you ^{mean} actually
^{Well} , you can't say for sure
that you cannot physically bear
and who has a teleportation system
he can do it physically too

i.e. Thinking is action

when you come to this
then ^{let's assume that} in the Eastern combat systems
often teleportation systems
at a special level of progress
they are used as control systems

and when you come to this action
you see that you are getting there
into space in exactly the same way
where is the Physical Body of the One God
this space is actually His Love
towards you
and there you see yourself as unique
in a specific place

and when do you contact there
you can work virtually with yourself
well sending yourself Love there
exactly where it actually works
it is the system of realization of the One God

therefore as a management
as an independent work
necessary on the topic of today's seminar
make such control
so that it would be a single universal
completely personal Love
is love for everyone there , yes

and most importantly your real ^{True} Love
which is exactly yours and which you know

that's when you look at her
you realize it
you see
that everything is returning to normal

i.e. everything is Norm

and it is done very quickly and realistically

This is where I end today's seminar.

Thank you very much for your attention
